

## THRIVE THERAPEUTIC SCHOOL PROGRAM

### WHO ARE OUR THRIVE CLINICIANS?

Thrive clinicians are licensed therapists with extensive experience working in behavioral mental health.

### WHAT DO OUR SERVICES INCLUDE?

- Presentation/workshop(psychoeducation groups) for staff and parents
- Individual, group and family counseling and support
- Crisis intervention services and assessment
- Risk assessments
- Effective case management
- Classroom and lunchroom observations/behavioral intervention
- Early intervention and identification for general education
- Home visits
- Attendance at IEP, section 504 committee meetings, annual review and transition meetings
- Collaborate with support staff including: school counselors, student assistant counselors, and cst members
- Provide consultation with staff/administration
- Maintain, keep current and confidential all student records, reporting data and outcomes
- Provide quarterly, mid-year and end-of-year clinical summaries
- Coordination of care (seamless integration, communicate with community based professionals, clinical documentation, transition planning)
- ESY programming
- Before/after school hours
- Option of bi-lingual counseling services upon request

### WHEN SHOULD YOU IMPLEMENT THESE SUPPORT SERVICES?

With the skyrocketing rates of anxiety, depression, school refusal, and suicides among children and teens the time to act is now. ESSER funding is available to utilize for mental health support and interventions.

### RESULTS

- Significant cost savings
- Measurable outcomes
- Reduced number of out-of-district placements
- Tier I, Tier II & Tier III service and supports
- Self-funding program
- Educational and clinical expertise
